**DETAILED ACTION**

1. This office action is responsive to the amendment filed on 1/20/2004.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-3, 5, and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Hamada et al (US application 10/022,006).

Hamada et al disclose, in figure 3, an antenna device comprising a meander antenna conductor 10, a first molded resin part 21 formed to cover the rear surface of antenna conductor wherein the first resin part includes a plurality of projection parts, and a second molded resin part 22 formed to cover the front surface of antenna conductor.

***Allowable Subject Matter***

Art Unit: 2821

4. Claims 4 and 13 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 7-12, and 14-30 are allowed.
